Student

Education

Sep 2016 Jul 2019	Secondary School Science and Technology - Escola Secundária José Estevão, Aveiro <i>Excellency Board - 12th year</i>
Sep 2019 Jul 2022	Bachelor's Degree in Computer Science Universidade de Aveiro Average: 16/20 Entrance Average - 16,35/20 <i>18/20 - Final Project - ReactJS and Python</i> <i>18/20 - Probabilistic Methods for Computer Science - Matlab</i> <i>17/20 - Software Patterns and Design - Java</i> <i>17/20 - Automatic Learning - Python</i> <i>16/20 - Software Engineering - Java</i> <i>15/20 - Artificial Intelligence - Python</i>
Sep 2022 Present	Master's Degree in Robotics and Intelligent Systems Universidade de Aveiro Average: 16/20 Entrance Average - 16/20 <i>17/20 - Programming of Robotics Systems - Python & ROS1</i> <i>16/20 - Intelligent Systems I - Python</i> <i>15/20 - Intelligent Systems II - Prolog & Python</i>

Experience

Dec 2019 Dec 2021 <i>2 years</i>	Núcleo de Eletrónica e Robótica Aplicada (NeRD) Member + Worked in different projects, mostly in the areas of Software and Electronics + Worked with tools like Node.js, Flask and Marlin + Worked with 3D Printers <i>Developed some knowledge in hardware, and sharpened my skills in software</i>
Dec 2020 Dec 2021 <i>1 year</i>	Human Resources + Resolving internal conflicts, as well as problems with the relationship between members + Developed skills in external communications for different companies and entities, like the Portuguese Navy <i>Developed my skills in leadership, organization and formal communications</i>

Hackathon by Aveiro Tech City

Oct 2022 Oct 2022 <i>1 week</i>	2022's Winner - SmartGains + Designed a User Application to analyze the physical performance of a user, as to give him real time feedback during the execution of the workout, equivalent to the feedback of a personal trainer + Created a simple machine learning model to predict the best weight the user should use in a timespan of at most one month, based on the weight used in the latest exercise and physical performance overall <i>Developed my skills in software and decision making, as well as communication</i>
---------------------------------------	--

Master's Degree in Robotics and Intelligent Systems

Sep 2022 Sep 2023 <i>1 year</i>	Vice Representative + Resolved any conflicts around the master's degree + Analyzed the courses in the degree and debated on the future of it <i>Developed skills in leadership, decision making and collaboration</i>
---------------------------------------	---

Experience

Bolsa de Investigação - Lightenjin

○	Nov 2022	Developer	
	Present		
	1 year		
			+ Developed backend and frontend of the system
			+ Implemented the design in the frontend
			+ Communicated close with the client to execute their demands
			<i>Polished skills in web design and communication, as well as team working</i>
